Education

Lovely Professional University

Bachelor of Technology in Computer Science and Engineering | CGPA: 7.4

Phagwara, Punjab, India

Aug 2022 – Jun 2026

Imperial Public School, Hathwa

Intermediate – Physics, Chemistry, and Mathematics | Percentage: 68%

Gopalganj, Bihar, India

Jun 2018 – May 2020

Projects

InterviewIQ | AI-Powered Technical Assessment and Interview Intelligence Platform | Github Jun 2026 – Jun 2026

React.js, Node.js, Express.js, MongoDB, Gemini API, Docker, JWT Authentication, REST API

- Designed and deployed a **full-stack AI software-as-a-service (SaaS) platform** for technical interview preparation, integrating ATS resume analysis, mock interviews, coding challenges, and real-time performance analytics.
- Integrated **Gemini API** to automate resume scoring, interview question generation, answer evaluation, and personalized learning path recommendations, reducing manual review effort by over **60%**.
- Built secure **RESTful APIs** with **JSON Web Token (JWT) authentication**, token refresh mechanisms, rate limiting, and input sanitization to ensure data security and system reliability.
- Implemented a sandboxed **JavaScript code execution engine** using the **Node.js VM module** for real-time coding assessments with timeout protection and isolated runtime environments.

FlowMind AI | Autonomous Business Operations Automation Agent | Github

May 2026 – Jun 2026

n8n, Gemini API, FastAPI, Node.js, Google Sheets API, Notion API, Gmail API, Docker, Webhooks

- Architected an enterprise-grade **AI automation platform** using **n8n workflow orchestration** and **Gemini API**, autonomously handling lead qualification, CRM updates, and content generation, reducing manual operations effort by **70%**.
- Built **multi-step automation pipelines** integrating **WhatsApp Business API**, **Gmail API**, **Google Sheets API**, and **Notion API** via **REST APIs** and **Webhooks**, processing over **500 automated executions** per month with zero human intervention.
- Implemented advanced **prompt engineering** strategies for AI decision nodes in n8n, enabling context-aware branching across business process automation scenarios and improving agent accuracy by **40%**.

CropSense AI | Intelligent Crop Recommendation System | Github

Sep 2025 – Nov 2025

React.js, Node.js, Express.js, Python, Scikit-Learn, Random Forest, Vercel, Render

- Developed a **full-stack AI-powered crop recommendation platform** predicting the most suitable crop based on soil nutrients and environmental conditions.
- Built and integrated a **Random Forest machine learning model** trained on **2,200+ agricultural records** to generate real-time crop recommendations across **22 crop categories**.
- Designed a responsive **React.js** frontend with modern UI/UX connected to **RESTful APIs** developed using **Express.js** and **Node.js**.
- Deployed using **Vercel** (frontend) and **Render** (backend), analyzing Nitrogen, Phosphorus, Potassium, Temperature, Humidity, pH, and Rainfall parameters.

Skills

Programming Languages: Python, JavaScript, C++, SQL

Artificial Intelligence and Generative AI: Large Language Models (LLM), Generative AI, Agentic AI, Prompt Engineering, LLM Integration, RAG, TensorFlow, Scikit-Learn, OpenCV, LangChain, LangGraph, OpenClaw, Hugging Face, NLP, Computer Vision

Automation and Integration: N8N Workflow Orchestration, AI Agents, Business Process Automation, REST API Integration, Webhooks, Google Workspace Automation

Web Development: React.js, Node.js, Express.js, FastAPI, REST APIs, HTML, CSS, Streamlit

Cloud and DevOps: Version Control, Docker, Kubernetes, CI/CD Pipelines, Linux(Ubuntu) AWS EC2, AWS S3, Vercel, Render, Prometheus, Grafana

Databases: MongoDB, MySQL, FAISS Vector Search, Redis

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming (OOP), Agile Methodology, Unit Testing

Training & Achievements

Data Structures & Algorithms Training

May 2024 – Oct 2024

GeeksforGeeks

Remote

- Solved over **500 competitive programming problems** covering arrays, linked lists, trees, graphs, recursion, and dynamic programming on **GeeksforGeeks**.
- Solved over **150 DSA problems** on **LeetCode**, strengthening algorithmic problem-solving skills across multiple difficulty levels.

Certifications

Oracle Cloud Infrastructure Generative AI Professional – Oracle | **View Certificate**

Jun 2025 – Oct 2025

Docker Professional Certificate – Docker | **View Certificate**

Jun 2025 – Jun 2025

Machine Learning Specialization – IBM and Coursera | **View Certificate**

Jan 2024 – Dec 2024

Cloud Computing – IIT Kharagpur, NPTEL | **View Certificate**

Jul 2024 – Oct 2024
